

READY FOR ANY ROOM SETTING

*Beautiful, unique, and heater-rated, the Ventana is a clean face gas fireplace that has it all.*

“Providing superior heat separates us from the competition. To achieve a higher level of energy efficiency is what makes us Valor.” *Martin Miles - Product Director*

Valor Ventana with Black Slab brick liner. Finished with a raised hearth, three-sided backing plate (trim) and slate wall finish.

Valor Ventana with Frontera brick liner and Andiron Fret. Set in the Fires of Tradition Corvallis mantel.

### *Designed Clean*

Designed without visible vents, grills or louvers, the Ventana recreates the look of a real wood-burning fireplace.

Recessed glass creates depth and literally disappears within the firebox.

You can tile or stone right up to the fireplace for the complete effect.
